

COMPANY PROFILE

Welcome to Joseph Younes interiors (Joseph Younes Furniture & design S.A.L).

Joseph Younes interiors is a custom made furniture company. Our know-how comes from a long tradition as furniture manufacturers.

We produce luxurious high-end upholstered furniture with highly tailored designs for residential projects, as well as we manufacture great quality for series and big projects (Furnished apartments, Hotels, offices, Ministries....).

Since 1973, *Joseph Younes* Interiors has been known for its honesty in business and great reputation, we have always been committed to offer the best. We rely on traditional manufacturing techniques combined with a constant search for innovation to improve the quality of comfort.

***Elise & Rhea Younes
Managing Partners***

Our Mission, Vision and Values:

The Mission:

Our Mission is to produce and provide on time with high care and quality the furniture orders to our clients and to meet their expectations.

The Vision:

Our vision is to be the icon of furniture of manufacturers with a leading market position in Lebanon and the Middle East.

The Values:

Joseph Younes Interiors obeys to the following values: Reliability, trust, quality and excellent customer service.

Reliability:

Our customer can rely on our longtime experience in regards to the comfort and to the finishing of his order. We meet our commitment in regards to the delivery.

Trust:

We make sure to built trustful links with our clients or our employees as well as our long list of loyal customers is a proof of our trustful dealing and business.

Customer service:

We strongly believe that client is a "King" and we treat him accordingly.

Our Strategy:

Our Showroom:

A designed furniture selection is available in our showroom covered with white fabrics so you can see the pure line and the beauty in every detail: allowing you to choose the design and the fabric separately. Additional designs can also be provided and manufactured to custom fit your tastes and spaces. Furthermore any design provided from the client can be produced exclusively for the allocated project.

Non Retail Approach:

Business to business:

We cooperate mostly with Architects and design offices. We make it possible to implement their ideas and concepts and we custom make their requests. The pricing of the B.O.Q projects depends on specifications and quality recommended by the design office. (Design, wood nature, filling of seat cushions, back cushions). We communicate with the design office and we care about every detail to be able to provide the best heavy-duty products with excellent follow-up during the process of manufacturing.

Business to customer:

We provide advice and assistance to walk-in clients and end –users to help them make the right choice taking into consideration their spaces, proportions, dimensions, tastes and budgets. This is our way to personalize not only our products but also our service with every single customer, we can also provide advice for the fabrics if needed. Prices also differ depending on the designs and recommendations.

Our Team:

Our workshop:

More than 60 experienced workers and handicrafts to help achieve our goals with surveillance of the QC (quality control manager)

Different shapes and designs that you select are finely worked into your own choice of fabrics to give a personalized character to your furniture. Perfection is demanded at each step of the manufacturing process to attain the ultimate in quality: hand finishing and individual verification of every single product is primordial.

Our furniture keeps their perfect shape throughout their long life because we have used our long – lasting experience to develop an exclusive interior tufting technique.

This technique consists of, using hard wood construction for the frame work. The bench suspension is made with sprung in the seat, as for the back suspension it is worked with hand tied winding sprung.

The techniques utilized sometimes differ depending on the different styles and designs but the quality and comfort always remain the same.

Our workshop is located in Sin el fil, jisir el wati Younes Building.

Managerial Positions:
